Nmfc code metal Server Rack

What is NMFC & how does it work?
So,what is NMFC? The LTL freight industry utilizes National motor freight classification(NMFC) codes to classify items for shipping. You will need to determine which NMFC freight class belongs in as you are determining your freight class.

What are NMFC codes?
NMFC codes classify freight into 18 different classes(50-500),with higher classes typically resulting in higher shipping rates. These classifications are based on density,stowability,handling,and liability factors. How do I determine the NMFC code for my freight?

What is an NMFC code lookup tool?
An NMFC code lookup tool is a tool that helps shippers find the right classification for each itemusing National Motor Freight Classification (NMFC) codes. These codes are mainly used for LTL (Less-Than-Truckload) shipments to classify items and determine shipping costs.

What are national motor freight classification (NMFC) codes?
National Motor Freight Classification (NMFC) codes are standardized freight classification systems used to categorize commodities for shipping. NMFC codes consider four key factors: density,stowability,handling,and liability. By using NMFC codes,carriers and logistics professionals can:
