

12 gallon self-cooling with power distribution casing

What is a CDU 12 cooling system?

A perfect solution that provides responsive, high-capacity cooling for HPC or GPU server nodes, and it only requires ASHRAE W3/W4 warm water to solve all cooling challenges of power-dense racks. The compact dimensions of CDU 12 allow for quick retrofitting of existing data halls with a liquid cooling system.

What is a self-cooling rack?

Self-cooling racks provide closed-loop precision cooling to help prevent mission-critical equipment in the rack from overheating. They are ideal for micro data centers or single-rack installations, particularly at the edge of a network. The warranty on this product has expired. If you need assistance, please contact us. Need help with your purchase?

Which liquid cooling systems does DCX supply?

DCX supplies Immersion Optimised Dry Coolers and a Thermasafe Dielectric Engineered Fluids. Hardware solutions are complemented with liquid cooled data hall design and implementation services, making DCX the first choice for liquid cooling systems' supplier.

What is CDU 12?

CDU 12 features all advanced capabilities: redundant pump design, dynamic condensation-free control, automatic coolant leveling, automatic leak detection and complete remote control of all important parameters.

The utility model relates to electric casings such as a kind of encapsulation speed regulator, vehicle power, frequency converter of Electric, the Electric self radiation type casing that particularly a kind of ...

AILET Answer Key 2026 Out, Provisional Answer Key Download Link Active Download the AILET 2026 Answer Key PDF for BA LLB & LLM. Check the provisional & final answer keys, ...

First, for use on distribution systems that are 13,200-volt delta three-phase which were built to distribute electrical energy at considerable distance. The second application has already been mentioned in ...

Power and data cables are separated from cooling lines, protecting them from moisture. The IT rack enclosure has locking front and back doors with clear acrylic windows that allow convenient visual ...

DCX HYDRO CDU 12 is a standalone Coolant Distribution Unit designed to cool a group of high-density server racks. This cost-effective but enterprise-class CDU, equipped with unique immersion pumps, ...
