Are solar panels paired with a home battery energy storage system?

By Sam Wigness | Dec 4, 2025 In the last year, nearly two-thirds of solar.com customers paired their solar panels with a home battery energy storage system (aka BESS). Why?

Should you use a battery energy storage system with a solar PV system?

Pairing battery energy storage systems (BESS) with your solar PV system allows you to store excess solar energy for later use. Whether for businesses seeking energy security and cost efficiency or homes looking for self-consumption (SELCO) of solar energy, BESS optimises solar usage and maximises your investment in renewable energy.

How do I Pair my solar panels with a battery storage system?

Here's how to pair your solar panels with a battery storage system, step by step. Look at your utility bills. Figure out your average daily usage (in kWh). Consider any future appliances, EVs, or lifestyle changes. You want to produce more than you use. If your home uses 30 kWh/day, aim for 35-40 kWh/day from solar.

What is a solar panel & battery system?

Solar + Solar panel + battery = uninterrupted power supply during outages. Residential Energy Storage Solutions System Sizes: 5kWh, 10kWh, 15kWh wall-mounted solar batteries Ideal For: Villas, landed houses, condominiums Inverter Brands: Deye, Growatt, GoodWe, Solis

Learn how to pair residential energy storage with solar panels to maximize renewable energy use, reduce electricity bills, and increase energy independence. This comprehensive guide ...
