

What is a full overlay hinge?

Full overlay hinges are used for individual cabinets or cabinets on either end of a row of cabinets. Half or Partial overlay hinges are used for a pair of cabinet doors in the middle of a row of cabinets where two doors have their hinges mounted on opposite sides of a shared middle partition.

What are the different types of overlay cabinet hinges?

The most common types of overlay cabinet hinges are: Full Overlay Hinges: In full overlay cabinets, the door completely covers the cabinet frame, creating a seamless and modern appearance. Full overlay hinges are designed to fit precisely in this configuration, ensuring the door aligns perfectly with adjacent doors.

How do I install overlay cabinet hinges?

When it comes to installing overlay cabinet hinges, you'll need a few basic tools to get the job done. Here's a list of the tools you'll require: Screwdriver: A screwdriver is essential for attaching the hinges to the cabinet frame and the cabinet door. Make sure you have one that matches the type of screws provided with your hinges.

What are the different types of cabinet hinges?

Traditional hinges are often used in both full overlay and half overlay cabinets. European Hinges: European hinges, also known as concealed hinges, provide a sleek, modern look to cabinets. They are adjustable in multiple directions, allowing you to fine-tune the door's position for a perfect fit.
