

What is a 70325 stainless cabinet cooling system?

The Model 70325 Stainless Cabinet Cooling System protects against fluctuations in this precision grinding operation by cooling the cabinet and allowing the electronics to be sealed against mist contamination. Thermostatic control assures you of efficient compressed air usage.

Where can I Find my Cabinet power supply?

Find your cabinet power supply easily amongst the 43 products from the leading brands (VEICHI, Wisman, CHANGHONG, ...) on DirectIndustry, the industry specialist for your professional purchases.

What is a cabinet panel cooler made of?

It is constructed of Stainless Steel (Type 303) to withstand harsh corrosive environments. Our Cabinet Panel Coolers make innovative use of compressed air technology to help you save power and take your productivity from good to great.

What is a thermostatic cabinet cooling system?

Thermostatic control assures you of efficient compressed air usage. The Model 70315 Thermostatic Cabinet Cooling System mounts on the side of this control, out of the operator's way, allowing free rotation of the control and clear view of the process. Thermostatic control minimizes air usage.
