Heavy batteries demand a solar battery box with extra strength and durability. In order to protect outdoor batteries from weather and damage, AZE manufactures custom NEMA 3R enclosures.

Our First Impressions of the Apex 300 Right out of the box, the Apex 300 looks familiar -- it borrows the classic Bluetti design from the old Bluetti AC300 and Bluetti AC500 power stations, but unlike the ...

Roof and sides from a single piece with roll-formed frame. Fully compatible with the VX25 baying system. Enclosure widths from 600 to 1800 mm and enclosures with 300 mm depth for applications ...

Whether you are already a juicing pro or just juice-curious, we've rounded up the best juicers after putting them through rigorous testing. Which Type of Juicer Is Best? Which Type of...

With so many options available, finding the perfect juicer can feel overwhelming. That's why we've narrowed it down to the 5 best juicers of 2025 to help you decide. 1. Kuvings Auto 10. The ...

The condensing heat exchanger, a stainless steel fin and tube design, is positioned in the furnace to extract additional heat. Stainless steel coupling box componentry between heat exchangers has ...

Equipped with a robust 15kW hybrid inverter and 35kWh rack-mounted lithium-ion batteries, the system is seamlessly housed in an IP55-rated cabinet for enhanced protection against water and dust, ...

It regulates how power generated in the photovoltaic solar panels is distributed to and from the auxiliary battery and to the load. A display informs about the state of the charge, operating parameters and ...

Fractional distillation, also known as fractionation, is the process of separating liquid mixtures based on differences in boiling points. It is widely employed to purify ...

GRP Battery enclosures are used for outdoor application with weatherproof and antistatic properties, finding their major application in housing different types of industrial batteries. They are being used in ...

In the Kitchen Lab, we evaluate both styles of juicers for performance, efficiency, and ease of use, scoring each based on its output and the resulting juice's taste, texture, and temperature.

35 889mm high solar battery steel lab unit

These are extremely high efficiency mini splits BUT these are NOT capable of accepting solar power directly. Only the units labeled "SOLAR HYBRID" can be powered by your solar panels.
