

What is a 39u server rack?

39U server racks and floor standing data cabinets from Server Room Environments provide a secure and protective enclosure system for a range of IT, IoT and Edge applications. This range of 39U racks includes 600-800mm widths and internal depths of 600-1200mm.

What is a server rack?

Server Rack is among the many security system types that VSH Technology offers. If you're looking for a Server Rack supplier in Malaysia, you've come to the right place. This rack is also known as an equipment rack. It is a standard frame or enclosure for mounting multiple electronic equipment modules.

How tall should a 39u rack be?

A 39U rack or cabinet can house equipment whose total height when placed into the rack is no more than 1.73m. Care therefore has to be taken when selecting a rack to make sure that the cabinet height is sufficient to house the IT server, networking peripheral or IoT device. For reference 1U=1.75inches or 44.45mm.
