

What is a power supply kiosk?

Power supply kiosks form a part of the Ritherdon range of Feeder Pillars. A power supply kiosk is a robust, weatherproof enclosure which can be either permanent or temporary in type. They are much faster to install than a brick built construction while being much more damage resistant than a plastic type enclosure.

What is a solar integrated pop-up kiosk?

Solar Energy is used to power up lighting, fan and other equipment. The Solar Integrated Pop-up Kiosk offers eco-friendly, solar-powered solutions, ideal for outdoor markets and remote areas, promoting renewable energy.

What is a ps60 power supply kiosk?

The PS60 power supply kiosk, manufactured by Ritherdon, provides a robust and weather-proof housing for a permanent electricity supply which meets the specifications of the DNOs for a permanent supply to a building or buildings (made to meet ENW specification for service head and CT chambers where required).

What is a turbine generator kiosk?

Our turbine generator kiosks connect wind turbines to the overall power network of for example a wind farm site. They are a mini GRC clad building that can be installed above the wind turbine footing with a fully enclosed underground GRC sump that will capture any oil from the transformer.
