

What is an IP65 rated enclosure?

IP65 rated enclosures provide indoor and outdoor protection for waterproof applications. Tested to IP65 standards ensures enclosures and cases are safe for housing sensitive electronic assemblies in harsh environments. IP65 rated boxes are available in plastic, aluminum and steel varieties.

Are Bud enclosures IP65 rated?

Bud offers a broad line of IP65 rated enclosures in materials ranging from plastic to fabricated steel. Enclosures with the IP65 rating are suitable for outdoor use and for indoor applications where factory washdown may occur. (Plastic IP65 enclosures must be UV rated if used outdoors.)

What does a 6 & 5 IP65 enclosure mean?

In the case of IP65, the 6 means that the enclosure will experience no ingress of dust, and the 5 means moderate protection against low-pressure water jets. (A limited amount of water ingress is permitted.) Corrosion resistance and UV protection are not covered by the standard. Read more in our blog post, [Your IP65 Enclosure Questions Answered](#).

What are industrial battery enclosures?

They are designed with different kinds of racking solutions and ventilators for heat dissipation. The specific design of these enclosures allows them to be pole, wall or above/below the ground mounted systems. The base is reinforced which increases the load bearing capacity for industrial batteries.
