

Are Bard AC units self-contained?

Our Bard air conditioning units are self-contained energy efficient wall mount cooling solutions. We offer Immediate Shipping Bard AC units for every application including normal procedures: standard and dehumidification, single stage and three phase, step and variable capacity, 1.5 to 5 tons.

What is a self-contained AC system?

This modular approach allows for assembly at the system's designated location, thereby avoiding the need to run extreme lengths of duct to the roof. Typically, each floor will have their own self-contained AC unit, making self-contained systems an ideal solution for multi-tenant office buildings where management can track energy usage per tenant.

What is a wall-mounted air conditioner?

They are designed to offer maximum indoor comfort without losing valuable floor or ground space. Our wide range of wall-mounted air conditioners are ideally suited for schools, equipment shelters, telecom, light commercial and heavy industrial applications. This unit will be shipped without the Low Ambient Controller installed by the manufacturer.

Where are self-contained air conditioners located?

Units are typically located in a building's mechanical room where servicing is done behind closed doors and does not disrupt the workplace. To design systems without compromise, our self-contained air conditioners offer design flexibility and integrate advanced HVAC technologies including:

Self contained, wall mounted air conditioners by Bard are available at ISC Sales. They are designed to offer maximum indoor comfort without losing valuable floor or ground space.

The unit offers three adjustable wind speed settings combined with an oscillation function. Innovative ice-sensing air outlet technology creates efficient, quiet cooling rated at 52dB (A), suitable ...
