

Are enclosure air conditioners a good choice?

These enclosure ACs are powerful and versatile cooling solutions, making them a perfect choice for many applications. Choose ISC Sales for the best in enclosure air conditioners, proudly manufactured in Texas to meet your toughest cooling needs. Need help finding the right Enclosure Air Conditioner?

What is an enclosure air conditioner?

Enclosure air conditioners are more suitable for environments that require precise temperature and humidity control, especially in harsh industrial settings. They offer the ability to cool below ambient temperatures and are designed to handle various environmental challenges.

What is an enclosure cooling unit?

The enclosure cooling unit helps to cool, dehumidify, and recirculate clean air within the electrical cabinet and through the heat producing components, providing protection from high temperatures, humidity and airborne contaminants.

How do you cool an enclosure?

There are three ways to cool an enclosure: natural convection cooling, forced convection, and closed loop cooling. The first method does not require an active cooling section so we are only concerned with forced convection with an air conditioner and closed loop cooling.

Whether you're in manufacturing, automation, telecommunications, or another critical industry, ICEcube offers the ideal Enclosure Air Conditioner Unit to meet your needs. ICEcube's line of packaged air ...

Trust in the proven enclosure climate control products from nVent HOFFMAN, where industry-leading products meet reliable local services Models with 800 to 20,000 BTUs/Hr cooling capacity for indoor, ...

Prevent controls from overheating with nVent air conditioning solutions. Our broad portfolio of reliable, energy-efficient enclosure air conditioners keeps your electrical equipment cool and your business ...

TEC Air Conditioner for outdoor enclosure cabinet- 300W Air Conditioner-DC powered LC UPC to LC UPC Duplex OM4 Multimode Fiber Optic Patch Cable 12U 600mm Wide x 600mm Deep IP55 ...

These new 480v enclosure air conditioners are microprocessor-based and offer digital temperature controllers that perform the functions of controlling the enclosure temperature while monitoring ...

There are three ways to cool an enclosure: natural convection cooling, forced convection, and closed loop cooling. The first method does not require an active cooling section so ...

Air Conditioners Trust in the proven enclosure climate control products from nVent HOFFMAN, where industry-leading products meet reliable local services Models with 800 to 20,000 BTUs/Hr cooling ...

Air Conditioners Air conditioners use condenser coils to deliver clean, cool air into electrical enclosures. These air conditioners are suitable for a variety of applications from small- to large-scale projects or ...

We proudly offer the industry's most extensive selection of enclosure air conditioners in numerous sizes and mounting configurations with capacities ranging from 1,000 to 30,000 BTU/H.

Transfer heat from one liquid to another in refrigeration, engine cooling, and other systems. Choose from our selection of enclosure air conditioners, including air conditioners, enclosure-cooling air ...

Discover high-performance enclosure air conditioners proudly Made in Texas, USA. ISC Sales offers reliable, American-made enclosure ACs for industrial and commercial cooling applications.
