

What is an outdoor kiosk?

An outdoor kiosk is a durable, interactive terminal designed to withstand the elements and provide information, services, or entertainment in outdoor locations. They are built with weatherproof enclosures, sunlight-readable displays, and vandal-resistant features to ensure reliable operation in various conditions.

How do outdoor kiosks work?

Outdoor kiosks utilize high-brightness displays with anti-glare technology to ensure optimal visibility even in direct sunlight. These displays are designed to provide clear images and text, even in challenging lighting conditions. How are outdoor kiosks maintained?

What are the features of a digital kiosk?

Custom functions such as logo display, date and time display, weather display, rolling subtitles, and more. The outdoor digital kiosk is equipped with an intelligent temperature control system that adjusts the internal temperature automatically. Besides, the high screen brightness allows for clear graphics display even in direct sunlight.
