

About 750 metres down the road we reach a place called Ponticello di San Paolo. This is where an ancient road presumably branched off (today below a railway viaduct), leading to the Via Laurentina ...

An ancient road, leading southwards from Rome toward Laurentum. Its course, endpoint, and coincidence with the Via Ostiensis and the Via Ardeatina are matters of scholarly contention.

At Duke Contractors LLC, we offer solar batteries to customers throughout Miami-Dade and Broward Counties, including Miami, Doral, Kendall, Hialeah, Hollywood, Miramar, Pembroke Pines, Davie, ...

The Necropolis develops along the two sides of via Laurentina and a road connecting Ostia to the Pianabella area; later the tombs also occupied the sides of an inner street and a neighboring square.
