

Best outdoor network enclosure for OSHA casing

What is an outdoor network enclosure?

WiFi networks often need to be extended outdoors using an electronic device such as a router or range extender, but outdoor network enclosures have a variety of unique needs to address. They need to be able to protect the sensitive electronic equipment inside with consistent performance in whatever conditions are present.

Which enclosure ratings are best suited to an outdoor enclosure?

Some of the enclosure ratings that are best suited to an outdoor enclosure include: NEMA 4: A commonly used standard for outdoor enclosures. NEMA 4 is a strong base level of outdoor defense that provides strong protection against precipitation and hose-directed water, as well as ingress from airborne debris of all kinds.

What makes a good outdoor enclosure?

However, there's a common set of protective and performance features that many outdoor enclosure designers will find useful: Good resistance to UV radiation and to prolonged exposure to various outdoor conditions. Locking or hinged design to quickly offer access when needed while discouraging unauthorized entry.
