What is a sheet metal enclosure?

Custom metal and NEMA enclosures that are built to last. Sheet metal enclosures are used across a range of industries--for everything from junction boxes to control panels. Our team of skilled fabricators use state-of-the-art technology and advanced techniques to design and deliver the precise enclosures you need for your unique specifications.

Who is Amco enclosures?

AMCO Enclosures has been recognized as an industry-leading server rack manufacturer for over 70 years. We are located near the O'hare airport in Des Plaines, Illinois. Optimize data center efficiency with custom PDU integration. Ensure reliable power distribution and scalability for your growing infrastructure.

What is an electrical enclosure?

Electrical enclosures protect electrical equipment from environmental factors and are commonly used in electrical control panels, switchgear and junction boxes. Equipment enclosures protect machinery, equipment or sensitive devices from physical damage and the elements.

We offer a comprehensive line of active and passive, metallic and non-metallic environmental enclosure solutions for communications and power distribution applications.

From concept through delivery, our wide range of manufacturing capabilities and state-of-the-art equipment ensures the best in custom metal enclosures in Chicago and Illinois.
