

What is a switch panel?

Switch Panels - robust and stylish solutions for controlling lighting systems by Futronix. A range of styles and colours with smart minimalistic design.

Are switch panels interchangeable?

We make switch panels for dual-zone control, for 'trail of light' panels for bedsides, for 'welcome' scenes - and many other dedicated functions. All switch panels feature ON/OFF switches so even the house guest or cleaner can operate them easily - a much appreciated feature. Both decor plates and switch operation are fully interchangeable.

What will switch design look like in 2025?

Multi-Functionality in Switch Design In 2025, switches are expected to do more than just control lights. Stylish switch designs now incorporate multifunctionality, serving as hubs for modern living. USB Ports: Charge devices directly from the switchboard. Integrated Dimmers: Adjust light intensity effortlessly.

Are modular switches a good choice?

Minimalism continues to lead the way in home design, and stylish modular switches are no exception. Modular switches offer sleek, clutter-free designs with clean lines and neutral tones, perfect for modern homes. They not only add sophistication but also come with enhanced safety and functionality.
