

Discontinued telecom outdoor corrosion resistant panel

What are outdoor Telecom cabinets?

Our outdoor telecom cabinets are designed to protect your sensitive network equipment from harsh environments where equipment may be exposed to dust or water. For added protection, there is a water and dust proof polyurethane door joint strip.

Can telecommunication equipment survive in an outdoor enclosure?

To survive in an outdoor enclosure, your telecommunication equipment needs to have climate control. So whether you are keeping the electronic system and its components cool in the summer or warm in the winter, outfitting your electrical box with the proper heating and cooling features will protect your investment.

Does e-Abel offer a custom outdoor telecom enclosure?

E-Abel offers custom outdoor telecom enclosures with NEMA standard, protecting cables and components from rain, shock hazard and heat.

How to protect your telecommunication equipment?

Whatever color you choose can interject an impression to your telecommunication equipment. There are many ways to conceal and cover your electrical equipment. You can opt for a sliding door, two-way door opening, or one-way door protection with a mini firefighter fire extinguisher to use in a fire emergency.
