

How does kiosk's payment system work for electric car charging stations?

KIOSK's payment system for electric car charging stations, along with additional features, can be seamlessly integrated into existing charging infrastructure. This integration ensures that charging point operators remain compliant with emerging regulations.

Why do you need a charging station kiosk?

People are always looking to charge their phones off site or when they are away from the office at a conference or trade show. Branding our charging station kiosk is a great way to meet your clients and brand your company. Charging stations are like cruiser tables; they allow for guests to socialize while their phones are charging.

What is a mobile charging kiosk?

A mobile charging kiosk is an interactive device charging station offered by Charge N Go Networks to enhance your event. It provides a different way to build customer loyalty and allows you to relay messages directly to your audience. Charge N Go Networks offers these stations at affordable daily lease rates.
