

Are polycase electrical enclosures IP68 rated?

Polycase's IP68 electrical enclosures provide superior protection in outdoor environments, ensuring internal components remain safe even in harsh conditions. Available in both plastic and aluminum material options, Polycase's IP68-rated enclosures come in a variety of sizes and styles, including flanged, hinged, and pole-mount options.

What materials are used for IP68 enclosures?

Materials: Polycase offers two material choices for IP68 enclosures: die cast aluminum and polycarbonate plastic. Both offer outstanding durability and useful features, so be sure to see our guide to the differences between aluminum enclosures vs. plastic enclosures to help you decide.

What are the most common use cases for IP68 enclosures?

These are some of the most common use cases for IP68 enclosures: Your application requires a fully submersible and watertight electronic enclosure that can withstand hours of complete immersion, as well as hazards like windblown dust and hose-directed water.

What is an IP68 enclosure?

Custom size, shapes and types are also available for your specific need. IP68 enclosure is one of the highest levels of protection available in the IP rating system. It means that the enclosure is completely dustproof (the first number "6") and can withstand continuous immersion in water under specified conditions (the second number "8").

At E-abel, we deliver not only IP68-certified enclosures but also complete electrical engineering solutions that integrate seamlessly with industry-grade connectors and wiring systems.
