

Enclosure electrical double doors detail drawing

Do I need a CAD drawing for a standard enclosure?

If a standard stock enclosure will meet the needs for a project, the CAD drawings may not be necessary. However, if the application requires a fully custom or customized standard enclosure, download and modify the CAD drawing to start the custom order process.

How do I order a custom enclosure?

However, if the application requires a fully custom or customized standard enclosure, download and modify the CAD drawing to start the custom order process. To order either fully custom enclosures or Customized Standard Enclosures, select an enclosure from our product line catalog and download the CAD drawing.

Are there alternative inner panel options for a wallmount enclosure?

Panel Alternative inner panel options also available. Hammond Manufacturing's EN4TD series of two door mild steel wallmount enclosures are constructed of formed 14 gauge steel. The EN4TD series offers NEMA 12 and 3R protection against harsh environments for wallmount applications.

Where can I find a drawing for a Saginaw control & engineering enclosure?

The drawings are also available on the part information page for each enclosure. At Saginaw Control & Engineering, we offer both fully custom enclosures, as well as Customized Standard Enclosures (CSE). Both types of customization involve similar design and manufacturing processes.
