

Expo telecom outdoor solar battery panel refacing austin tx

How does Austin energy billing work?

(Very Important!) Austin Energy has a different billing structure than surrounding utilities. They use your existing electrical meter and add a solar meter. Your solar meter will keep track of solar production and apply the Value of Solar rate to solar production. This is the rate that AE will credit your solar energy production.

Can solar panels be installed on a roof in Austin TX?

The most common solar panel installation in Austin TX is on Composition Shingle roofs. Solar Racking attaches directly to metal roof seams, requiring NO roof penetrations! We use premium solar flashing that is designed and engineered for tile roofs. Solar Panels can be installed on the ground if your lot is large enough.

Did Austin & crew reinstall my solar panels?

Austin and crew did a great job removing and reinstalling our solar panels when we replaced our roof. They cleaned up after the job and also washed the panels so we got more output after the install! Excellent customer service! Jack was prompt, thorough, and courteous, and took the time to answer all my questions.
