

For sale of backsplashes with ip65 waterproof data rack

What is an IP65 rated enclosure?

IP65 rated enclosures provide indoor and outdoor protection for waterproof applications. Tested to IP65 standards ensures enclosures and cases are safe for housing sensitive electronic assemblies in harsh environments. IP65 rated boxes are available in plastic, aluminum and steel varieties.

What is a waterproof server rack?

Waterproof Outdoor Server Rack Designed for outdoor server installations, these racks are built to withstand rain, snow, and extreme temperatures. Features rugged construction and lockable doors for added security. Ideal for telecom infrastructure and industrial applications. 8. Waterproof Rack Mount Cabinet

How do I know if my server rack is ip45 or IP65?

The rating is typically represented by two digits, such as IP45 or IP65, with the first digit representing protection against solid objects and the second digit representing protection against water. At 4Cabling, we offer outdoor server racks with both IP45 and IP65 ratings, so you can choose the level of protection that best suits your needs.

How does the IP55 outdoor server rack work?

The cabinet design allows natural wind cooling through filtered vents on the front door and venting under the lip of rain hood. The IP55 outdoor server rack also has two or four fans with a dust-proof cover located at the top of the cabinet for greater airflow/cooling.
