Does the IKEA A4 drawer fit a hanging file?

Nope,A4 is actually slightly longer so that fits even worse. IKEA,how do you justify this issue? The drawer is designed to have hanging folders run the length of the rails on the drawer but no hanging file fits! This is really stupid,unexpected for IKEA. You need to address this issue.

How do you hang files in a drawer?

Assemble and place the frame inside the drawer, then hang your file folders on it as you would with built-in rails. This solution is ideal for those who want to use hanging files without altering their cabinet permanently. It offers the same level of organization and ease of access as traditional rail systems.

Drawer stops prevent the drawer from being pulled out too far. This unit can be placed anywhere in the room because it is finished on the back. Plastic bumpers for holding the table top in place are included.
