

Hinge for industrial battery storage rack double doors

What are heavy-duty industrial hinges?

As they are manufactured using needle bearings and a thrust bearing, our range of heavy-duty industrial hinges can handle heavy loads for years of dependable service. The types of heavy-duty industrial hinges offered by us include the following:

What is a hinge & how does it work?

The hinge allows the two components to be opened and closed in relation to each other at an angle limited by the hinge design and the installation situation. As a rule, one of these components is the frame of a cabinet or housing or a box or chest. The other element to be movably connected to it is a door or flap.

What types of heavy duty hinges are available?

Our heavy-duty industrial hinge offerings include a wide selection of products, ranging from commercial style cover capsto institutional hinges. Our hinges are specifically designed for industrial and commercial applications, including schools and hospitals.

What is a lubricated door hinge?

Also known as bullet hinges, these hinges are the right size for tight spaces and narrow frames. A grease fitting makes these hinges easy to lubricate. These hinges are made of metal. The hinge pin is attached to the frame leaf so you can quickly lift the door off the hinge without removing the pin. These hinges are made of metal.
