How do I move a cabinet from a pallet to a cl4692?

If your shipment includes a two-piece ramp, attach part A to the pallet and part B to part A. CL4692 Roll the cabinet down the ramp About this task NOTE: Make certain the leveling feet are secured in the UP position before moving the cabinet. Secured feet allow the cabinet to roll off the ramp and into position.

What happens if you move a populated storage rack?

Moving a populated storage rack without the proper equipment can damage the supporting structures because they are not designed to withstand tilting, lifting, or sliding. Likewise, servicing a rack's midplane, internal power cables, DC input unit, or DC adapter tray requires partial or full depopulation and subsequent repopulation of the rack.

How do I choose a rack?

Decide whether you need one rack or multiple racks. Double-check that you have enough space to accommodate the new rack. Don't forget to build in a buffer to ensure that there will be enough room for air flow on the front, sides, and back of the rack. Decide how you want to arrange your equipment in the rack.
