

What is a battery cabinet?

A battery cabinet is a particular type of storage cabinet that reduces the risks associated with lithium-ion batteries. These innovative cabinets create a safer environment in which workplaces can charge and store their li-ion cells.

How to build a storage cabinet?

To build a storage cabinet, you will need wood, glue, stain and paint, some screws, and a miter saw. First, cut all the pieces of wood needed for the cabinet using the miter saw and table saw. Then, assemble the cabinet by starting with the side panels, followed by attaching the back piece and the cabinet top.

Do you need a custom battery box?

A simple and affordable solution is a DIY custom battery box. It gives protection from harsh weather outside, keeps your batteries stored together, and makes it easy to locate and charge quickly. It can be done in simple steps, with pictures and descriptions detailing each part.

Why do you need a battery box?

This battery box is the perfect enclosure for storing your unit. By protecting the batteries from the elements, you are able to charge your units and use them for things such as running an inverter and refrigerator during a power outage.
