Who is Hudson solar & battery solutions?

"They were very accommodating and respectful of our needs--probably the best contractors I've had work on our home." Hudson Solar + Battery Solutions empowers energy independence and resilience through premium solar and battery systems.

How many battery energy storage projects are there in New York?

There are 5,000+existing battery energy storage projects in New York, storing 340.70 MW of clean energy that has bolstered grid resiliency for local communities. (Source: NYSERDA) Read on about the great improvements battery energy storage facilities are making to our electricity grids.

Will battery storage improve air quality in New York?

New York has among the most stringent fire safety codes in relation to battery storage in the nation with updated codes adopted in 2025. After the codes were adopted, a group of former FDNY leadership released the following statement. Battery energy storage systems will improve air quality and help support the state's clean energy transition.

Are battery energy storage facilities safe in New York?

Yes. New York is home to 6,000+ battery energy storage facilities. Fires at these facilities are rare, and developers and regulators in New York have already begun taking steps to mitigate risks by implementing enhanced safety protocols and emergency response plans - and reviewing and updating existing fire codes.
