

Industrial storage data rack with water IP55 IP65

How does the IP55 outdoor server rack work?

The cabinet design allows natural wind cooling through filtered vents on the front door and venting under the lip of rain hood. The IP55 outdoor server rack also has two or four fans with a dust-proof cover located at the top of the cabinet for greater airflow/cooling.

How many fans does the IP55 outdoor server rack have?

The IP55 outdoor server rack also has two or four fans with a dust-proof cover located at the top of the cabinet for greater airflow/cooling. The fans are serviceable and the front door dust filters are easily accessible for cleaning. All fixtures are internal to the cabinet to provide a secure solution.

What are all-rack IP55 & IP66 cabinets?

Explore our range of All-Rack IP55 and IP66 Cabinets, engineered to safeguard your critical IT and networking equipment in the most demanding conditions. These cabinets provide exceptional ingress protection, ensuring reliable performance against dust, water, and environmental hazards.
