

What is an IP65 rated enclosure?

IP65 rated enclosures provide indoor and outdoor protection for waterproof applications. Tested to IP65 standards ensures enclosures and cases are safe for housing sensitive electronic assemblies in harsh environments. IP65 rated boxes are available in plastic, aluminum and steel varieties.

What is an IP65 stainless steel enclosure?

The IP65 Stainless Steel Enclosure is engineered to deliver robust protection in harsh and corrosive environments. Made from high-grade SUS304/SUS316 stainless steel, this enclosure is ideal for applications requiring long-term durability, hygiene, and resistance to moisture, chemicals, and salt spray.

What does IP65 mean?

The second digit, 5, stands for watertight protection against dripping, splashing, leaking and low-pressure water jets. IP65 is a common rating for commercial and industrial enclosures that need strong basic protection. IP65 Electrical Enclosures from Polycase
