Our Vanguard®; outdoor weatherproof IP Rated (IP54 to IP65) enclosures offer a modular product range in multi bay, multi height and multi depth options, with the flexibility to house a broad range of equipment in a variety of industry standard mounting formats.

What is an outdoor rack enclosure?

Outdoor rack enclosure and cabinets with or without 19" or 21" rack system, especially designed for outdoor use: thermo-insulated and self-cooling double wall for better protection of the electronics, servers, CCTV, telecommunications, voice, data, fibre optics, ... Ideal for protecting electronic equipment against temperature change.

How do I know if my server rack is IP45 or IP65?

The rating is typically represented by two digits, such as IP45 or IP65, with the first digit representing protection against solid objects and the second digit representing protection against water. At 4Cabling, we offer outdoor server racks with both IP45 and IP65 ratings, so you can choose the level of protection that best suits your needs.

Equipment that has been designed hardened for outdoor use will perform well in an enclosure rated to IP54. It will give a good level of protection from airborne dust and splashing rain.
