

Kiosk hinge repair plate telecom outdoor corrosion resistant

What is a ul 60950-22 certified kiosk?

Typical RFP statement -- Kiosk shall be UL 60950-22 certified - Contractor shall provide a unique UL identifier number as this will allow the City to verify the compliance. Useful Links New to UL?

What are UL kiosk standards?

UL Kiosk Standards means using standard components. UL 2361, UL 291 for ATM. Stability tests for kiosks include slide, tip and push.

How long does a kiosk take to disassemble?

Historically kiosk manufacturers have adhered to the same specifications the ATM manufacturers adhere to, when necessary. That is the UL-291 spec and basically it is 15 minutes and a crowbar. Most times bandits wrap a chain around it and haul it away for disassembly. A good reference and explanation is here.

What is UL certification for custom kiosks?

UL certification for custom kiosks means the stability of the units. These tests are known as the slide test, force stability test and 10 degree static tip stability test. The tests are baselined against the normal 5 year old child. The usual precaution is if the unit is subject to a push force of 9Kg in any direction, then bolt it down.
