

What is a rack enclosure?

Rack enclosures are designed to house network access equipment used in industrial environments. These enclosures provide outstanding protection against dust, oil and water, and are available in solid or windowed door options. All models offer multiple NEMA ratings.

Why should you choose e-Abel for a custom electronic enclosure?

At E-abel, we manufacture custom electronic enclosures that meet the exact requirements of your project. We offer customization options on design details such as size, shape, and even hole placements. Moreover, all our custom enclosures are made using high-quality materials and in strict adherence to NEMA standards.

Do custom NEMA enclosures have the right IP rating?

We ensure that your custom NEMA enclosures have the right IP rating for your project type. Configurations refer to the interior design details of an enclosure such as racks and paneling. We include custom electrical panels or racks in specific orientations based on your project requirements.
