

Laminates for kiosk teal grain in pino greigio

What is Grigio laminate?

GRIGIO CLOTH is one of industrial series laminatethat refers to an aesthetic trend in interior design that takes clues from old factories and industrial spaces that in recent years have been converted to lofts and other living spaces. Available with various surface and several components designs. © TOPMIX 2024. All rights reserved.

What finish do mall kiosks use?

One common surface finish used on mall kiosks is a clear coat of varnish or lacquer. This finish helps to protect the wood from scratches,stains,and water damage while allowing the natural beauty of the wood grain to show through. It also provides a smooth and glossy surface that is easy to clean and maintain.

What are the benefits of using laminate materials on retail kiosks?

The benefits of using laminate materials on retail kiosks are numerous. They are highly resistant to scratches,stains,and water damage,making them ideal for high-traffic areas like shopping malls. Additionally,laminate materials are easy to clean and maintain,requiring only a damp cloth and mild detergent to keep them looking like new.

What materials are used in mall kiosks?

Laminate materialsare commonly used on the surfaces of mall kiosks to provide a durable and attractive finish. These materials are made by layering thin sheets of paper or plastic resin together and then laminating them with a protective coating.
