Place your order today to get the storage space you need at a price you can afford! We sell large metal buildings up to 60' wide and 300' long.

What sizes are available for large metal buildings?

Here are some popular sizes for large metal buildings: All of our 32-to-60-foot-wide large prefab metal buildings have a vertical roof design that allows snow to slide off of the roof instead of weighing down your building.

What are large metal buildings made of?

Our large metal buildings are made of sturdy corrugated steel. This is the best option for a strong structure that will hold up through years of weather. Steel is also fire-resistant and resists damage from mold and bugs, offering reliable protection for property inside your building. **How Much Do Large Metal Buildings Cost?**

Why should you choose a steel garage from direct metal structures?

Why choose a steel garage from Direct Metal Structures? Durable, low-maintenance metal garages outperform wood--no rot, warp, or termites, and a clean, modern look. Clear-span framing maximizes usable space for cars, trucks, ATVs, and shop gear.
