

What is a panel enclosure?

Panel enclosures are essential to providing protection for electrical equipment, wiring, and a variety of sensitive systems. Their primary purpose is to shield these systems from environmental hazards, unauthorized access, and damage that can occur during a work day.

What are Sel panels & enclosures?

SEL panels and enclosures deliver advanced protection, automation, control, and communications solutions for both custom and standardized applications. SEL direct-replacement assemblies are complete, preassembled retrofit kits designed to match the form factor, terminal layout, and functionality of specific legacy devices.
