

Metal ms outdoor rack ip65 waterproof Server Rack

How do I know if my server rack is ip45 or IP65?

The rating is typically represented by two digits, such as IP45 or IP65, with the first digit representing protection against solid objects and the second digit representing protection against water. At 4Cabling, we offer outdoor server racks with both IP45 and IP65 ratings, so you can choose the level of protection that best suits your needs.

How do I choose the right outdoor server rack enclosure?

Choosing the right outdoor server rack enclosure is important to ensure your equipment stays protected and secure. Some factors to consider when selecting an outdoor server rack include the level of protection needed, the size and capacity of the rack, and the type of equipment to be housed.

What is an outdoor server rack?

Outdoor server racks are designed to house a wide range of equipment, including servers, networking gear, power supplies, and other electronics. They can offer the protection and security necessary to house a single server or an entire data centre, depending on your networking requirements.

What factors should I consider when choosing an outdoor server rack?

Some factors to consider when selecting an outdoor server rack include the level of protection needed, the size and capacity of the rack, and the type of equipment to be housed. Other important factors may include the durability and ease of installation of the rack.
