

What are recessed pull handles?

Recessed pull handles are mounted flush to a door or panel. They can be mounted by snapping them into a panel; they can also be welded or screw mounted. Plastic recessed handles are the most popular; however, we also offer stainless steel and aluminum flush handles. Our range of Metal Pull Handles have a "U" shaped design.

Who makes recessed handles & pulls?

When it comes to Recessed Handles & Pulls, you can count on Grainger. Supplies and solutions for every industry, plus easy ordering, fast delivery and 24/7 customer support.

What is the difference between angled arch and recessed pull handles?

Angled Arch are a style of pull handle that are front mounted and through-hole mounting. They have an ergonomic profile for pleasing aesthetics and user comfort during use. These pull handles are strong and suitable for machine applications. Recessed pull handles are mounted flush to a door or panel.

What is a round pull handle?

The range of pull handles designed in a round arch-shape have a semi flat profile that makes them ideal when two handles are required on close opening panels. These lightweight handles are large in their design and are available in a choice of metal materials and aesthetically pleasing finishes. They are rear mounted with two M6 screws.
