

Should you choose a metal building home?

Increasingly, cost-conscious prospective homeowners who are looking to customize their own living spaces are choosing metal building homes, which combine the strength and versatility of steel construction with the style and beauty of traditional home architecture.

Who makes prefab steel homes?

Sunward Steel Buildings Inc. Manufacturers Metal Building Homes and Prefab Steel House Kits. View Prefab Steel Home Floor Plans, Custom Designs and Layouts.

Why do steel homes have a longer service life?

Steel homes have longer service life compared to other types, e.g. reinforced concrete buildings, since all the members are prefabricated using highest quality materials and minimizing production errors.

Can I customize my Steel home?

You can customize your steel home with a layout that best fits your needs. With more than 40 years of experience supplying metal homes, metal carports and related buildings for residential and commercial use, we know the ins and outs of the steel homebuilding industry, and our prefab home kits allow for easy delivery and erection.
