

# Outdoor enclosure telecom with power distribution station

What are outdoor telecom enclosures?

Outdoor telecom enclosures are structures designed to protect and house telecommunications equipment outside. They come with a range of options including cable management, thermal management, environmental protection, and integration. All these solutions and enclosure products can be custom-made. KDM relies on custom and standard NEMA standard telecom cabinets to protect their internal equipment.

What is an outdoor Telecom cabinet?

An outdoor telecom cabinet protects the cables and equipment that process and reroute information for our communication needs via the internet, television, and other applications. These enclosures include organizing racks and thermal management systems, among other features. What is a fiber cabinet?

What are NEMA rated outdoor Telecom enclosures?

NEMA-rated outdoor telecom enclosures are cabinets that meet specific application requirements to withstand outdoor elements. They come in various NEMA standards such as 3R, 4, 4X, and 6. Our telecom outdoor cabinets are factory tested, field proven, and worry-free.

What accessories are included in an outdoor Telecom cabinet?

An outdoor telecom cabinet from KDM includes enclosure fans and power options. Depending upon the installation location, KDM also offers an optional built-in air conditioner or heat exchanger.

This cabinet integrates power distribution, environmental control, and equipment storage within a single outdoor unit, suitable for mountaintops, rooftops, remote sites, and other harsh environments.
