

Outdoor industrial storage enclosures

Electrical Box telecom

What are outdoor electrical enclosures?

Browse our durable lineup of outdoor electrical enclosures designed to protect sensitive components from rain, dust, UV exposure, and harsh environmental conditions. Built for rugged reliability, these enclosures are ideal for exterior walls, pole mounts, solar setups, telecommunications, and remote control systems.

What is an outdoor telecommunication enclosure?

Damage-resistant and reliable outdoor enclosures are key for outdoor telecommunication applications from cell tower sites and fiber optic networks to substations. These specialized cabinets house and protect sensitive equipment like routers, switches, and other network devices.

Can telecommunication equipment survive in an outdoor enclosure?

To survive in an outdoor enclosure, your telecommunication equipment needs to have climate control. So whether you are keeping the electronic system and its components cool in the summer or warm in the winter, outfitting your electrical box with the proper heating and cooling features will protect your investment.

What are outdoor Telecom cabinets?

Our outdoor telecom cabinets are designed to protect your sensitive network equipment from harsh environments where equipment may be exposed to dust or water. For added protection, there is a water and dust proof polyurethane door joint strip.
