When was the first power station built?

The world's first power plant,often considered the first true power station,was the Pearl Street Station,located in Lower Manhattan,New York City. It was built by The Edison Illuminating Company (founded by Thomas Edison),and began operating on September 4,1882.

How many power stations did Edison build in 1887?

By the end of 1887,Edison Electric was losing market share to Westinghouse,who had built 68 AC-based power stations to Edison's 121DC-based stations. To make matters worse for Edison,the Thomson-Houston Electric Company of Lynn,Massachusetts (another AC-based competitor) built 22 power stations.
