

????,????????????????,???Cold Plate????????????????:(Liquid-to ...

An ordinary photograph from 83 years ago has ignited wild speculation on the internet, with some suggesting it might be evidence of time travel. The photo, captured by Edwin Rosskam in ...

Schneider Electric liquid cooling solutions are purpose-built for AI and high-density IT environments. With over a decade of experience cooling racks above 400kW, ...

A 1941 photograph by Edwin Rosskam has ignited online speculation about time travel due to a boy appearing to hold an iPad. While some believe this suggests time travel, others argue ...

Energy-Efficient Infrastructure Liquid-cooled GB200 NVL72 racks reduce a data center's carbon footprint and energy consumption. Liquid cooling increases compute density, reduces the amount of floor ...

Maximize AI performance with Soetek AI Coolit(TM). Our liquid cooling data center solutions support high-density clusters up to 100kW/rack. Engineered for NVIDIA HGX with ultra-low ...

Ingrasys offers a complete line of rack-level liquid cooling solutions based on where the heat is exhausted in the data center. These solutions include options for exhausting heat entirely into the ...

How will liquid cooling support the future state of AI computing? While most now understand that liquid cooling is a prerequisite for the 120 kW NVIDIA racks ...

A 1941 photograph taken by Edwin Rosskam has sparked an online debate, with many believing it is "proof of time travel." The image shows a group of children outside a Chicago cinema, ...

As the Rack becomes the new unit for scalable computing, engineering a liquid cooled rack requires careful planning and expert assembly. A liquid cooling solution needs to be flexible enough to handle ...

Discover the right liquid cooling solution for your data center. Whether you're deploying AI and HPC workloads or managing high density server racks, nVent helps you improve efficiency, reliability, and ...

As the computing capability of the data center increases, IT equipment generates more heat, which must be addressed to handle higher heat density and prevent system failures. Delta's liquid cooling ...

A photo taken in 1943 appears to show a man getting caught holding a cellphone to his ear and talking on it and it's got social media buzzin". The photo was posted to an Icelandic ...

The photo was taken in 1943 in the Icelandic capital Reykjavik It shows a man holding his hand close to his ear like a modern-day cellphone user would The first-ever mobile phone ...

Read more: Watch: What did the "bleak outpost" of Reykjav&#237;k look like in WWII? Time traveller? Surrounded by GI"s, the man blends in with the locals. Photo/Facebook, Gamlar lj&#243;smyndir ...
