

How to hide a router & modem in a box?

You can imagine if you place an open basket on the floor, people can easily spot those unsightly router and modem. Besides using a basket, you can also hide modem and router in a box, just make sure the box you store your router has decent amount of holes or openings for heat to escape and also for the wires and cables to come out.

How do you keep a router and modem out of sight?

Place the modem and router in a wicker basket, metal laser-cut box, or cable organizer to keep the modem and router out of sight. If the router is in a highly visible area, you can rearrange furniture, add plants, or set out framed photos to cover the modem and router.

Where should I Hide my router?

Do not hide your router somewhere where the signal strength will be too low or where you will be losing your WiFi signal. Instead, try hiding your router in something made of lightweight material. Avoid placing your router in metal or dense materials, which might interfere with your WiFi signal. Source

Can you hide a Wi-Fi router?

Most Wi-Fi routers are, frankly, hideous. So you might feel compelled to hide your router from public view, especially if you have one that looks like an upside-down arachnid. But materials such as brick and metal can block Wi-Fi signals, defeating the reason you got a router in the first place.

With that mounted under your desk, you could keep the smaller cables out of sight (either by using a cheap cable tray or cable ties -- or both!) Doesn't help with hiding the modem and router but would ...
