

Solar battery casing custom for of electronics

Does Sunwize Power & Battery offer custom enclosures?

Sunwize Power & Battery also offers custom enclosures to meet any specification. All Enclosures include rainproof design, electrical knockouts and ventilation. M Series Enclosures are pole-mounted enclosures featuring new battery storage capabilities and a hammered powder coat finish.

How to customize a battery enclosure?

Any flat side of the enclosure can be silk-screened with labels, warnings, serial number, company name, and logo. Engraving your battery enclosure is another customization method. Usually, about 0.005 inches or 0.010 inches of metal is removed from the surface. The requested symbol is basically scratched into the surface.

What is a battery enclosure?

A battery enclosure is a box designed to protect a battery from outside factors like weather conditions. If you need something for energy storage and battery storage, these are for you. Are battery enclosures vented? Battery enclosures require vents to prevent battery overheating. This helps prolong battery life and also prevents toxic leaks.

What materials are used for weatherproof battery enclosures?

The materials used for weatherproof battery enclosures are not different from materials used for other types of enclosures. Metal battery enclosures include those manufactured from carbon (mild) steel, galvanized steel, and stainless steel- usually of the grades 304, 316, or 316L. Carbon steel is usually duller than stainless steel.
