

What is a stainless steel work station?

This stainless steel work station combines durability, chemical-resistance, cleanliness, and conductivity. The 304 stainless steel top is factory mounted onto an epoxy-finished or powder-coated steel frame made of all-welded square tubing.

How do I choose the best stainless steel work station?

All base designs include leveling feet to provide stability on uneven floors. For optimal cleanliness, select the UltraClean(TM) stainless steel work station, which features an electropolished finish that removes the top layer of stainless steel and leaves behind an ultra-smooth layer of chromium and nickel.

What is a stainless steel 304 workstation?

Stainless Steel 304 Heavy Duty Anti-static HDA Workstation (Model: SHDAWST) Built for cleanliness and stability, these tables feature perforated stainless-steel work surface and support structure that virtually eliminate "drumming". Do not get the size you want?
