

What is an outdoor telecommunication enclosure?

Damage-resistant and reliable outdoor enclosures are key for outdoor telecommunication applications from cell tower sites and fiber optic networks to substations. These specialized cabinets house and protect sensitive equipment like routers, switches, and other network devices.

What is an outdoor Telecom cabinet?

Technologies such as digital transformation, Industry 4.0 and Big Data create revolutionary differences in our lives. Outdoor Telecom Cabinets are rugged enclosures designed to protect telecommunications equipment from environmental factors while providing secure access for maintenance.

What are surplus Telecom shelters & cabinets?

Surplus telecom shelters & cabinets are structures that are new but have never been installed. Used telecom shelters & cabinets are structures that have been installed at one time but now have been dismantled. New telecom shelters & cabinets include excess inventory from various manufacturer's facilities.

What is the difference between used telecom equipment & surplus communication equipment?

Used Telecom Equipment Represents a Typical 60% Savings Over New. Surplus Communication Equipment Averages 25% Savings or More. Secured against intruders. Some shelters include generators, ATS, AC units with controllers, and other equipment. Why Choose Tower Direct?
