

Why do you need a Küba de evaporator?

In combination with great cooling duty, this allows fast temperature control of freshly stored goods down to the desired temperature. The Küba DE professional lives up to its name for complex cooling tasks in smaller cooling rooms. Applications in which an efficient ceiling evaporator is required.

What is a Küba air cooler?

Our air coolers of the Küba industrial range have been designed for the applications from approx. 5 to 156 kW cooling duty (depending on refrigerant). Their air straighteners assure equalized air flow, which enables air throw up to 68 m.

Which cooling tower is best for a metal processing plant?

PME-Open cooling towers: efficient and reliable, ideal for handling high temperature jumps and ensuring operational reliability. PU field-erected cooling towers: needed to dissipate heat from very large metal processing plants.

A captivating dance of colors unfolds across the surface, where deep green and black hues interlace with shimmering gold, gray, and green speckles. Each slab is a unique masterpiece, reflecting light in ...

Uba Tuba granite is a popular choice for kitchen remodels, but like any material, it has its strengths and weaknesses. Below, we've broken down the pros and cons in an easy-to-read table so you can ...

Our team is capable of building Field-Erected Cooling Towers of any size, structure (FRP, Concrete and/or Timber), and heat exchange medium (from splash grids to high performance film).

Uba Tuba is a dark green and black speckled granite from Brazil, and due to its dramatic dark color and dramatic flecks, it can be complemented with a variety of lighter colored granites. Creamy whites, ...

In this blog post, I'll delve into the various types of cooling systems used in prefabricated substations, exploring their features, advantages, and ideal applications. Air cooling is one of the ...

To ensure optimal cooling, our towers are designed to keep the water at controlled temperatures and avoid sudden increases in water temperature. In addition, we evaluate the choice of heat exchangers ...

Showing Results for "Uba Tuba White Cabinets" Browse through the largest collection of home design ideas for every room in your home. With millions of inspiring photos from design professionals, you'll ...

Klarna is a "buy now, pay later" provider that offers two payment plans that break up the cost of your purchase

for zero interest. It also offers monthly financing, which may charge interest.

To realize control cooling process, an online control cooling equipment was introduced, which can implement the efficient and uniform cooling process for annular seamless tube. Meanwhile,...
