

What are elutron&#174; underground storage tanks?

Elutron&#174; underground storage tanks are engineered for simple installation. Their inherent stiffness eliminates the need for deflection monitoring during backfilling,unlike fiberglass tanks. These features save installers hours typically spent prepping non-metallic tanks. At TrueNorth Steel,we have the capacity to keep your projects moving.

What underground storage tank equipment does OPW offer?

OPW offers a wide selection of underground storage tank equipment,including spill containment manholes,manholes and monitoring equipment,fill pipe connection equipment,overflow prevention equipment,and tank venting equipment. These products help protect the environment by providing fuel operations with essential equipment.

What is a Plasteel elutron&#174; underground fuel storage tank?

Plasteel&#174; Elutron&#174; underground fuel storage tanks incorporate the time-proven strength and reliability of steel tanks with a unique impervious fiberglass reinforced (FRP) outer secondary containment layer. This seamless outer FRP layer creates a barrier that protects the steel tank from the potentially corrosive effect of underground environments.

Are elutron underground storage tanks ul 58 or ul1746?

Tank built and tested in accordance with UL58Steel Underground Tanks for Flammable and Combustible Liquids,and UL1746 External Corrosion Protection Systems for Steel Underground Storage Tanks. Elutron&#174; underground storage tanks are engineered for simple installation.
