

Are solar panels paired with a home battery energy storage system?

By Sam Wigness | Dec 4, 2025 In the last year, nearly two-thirds of solar.com customers paired their solar panels with a home battery energy storage system (aka BESS). Why?

Can you add battery storage to a solar panel?

The good news is that it's entirely possible to add battery storage to an existing solar panel setup. So-called "storage ready" systems are already equipped with an inverter that can easily direct excess power into a battery. But even if your system wasn't designed with storage in mind, you still have options.

Can a solar system accommodate a battery?

Most solar systems can accommodate a battery, but the ease of installation depends on your setup. Why trust EnergySage? As subject matter experts, we provide only objective information.

Should I add a battery storage system to my home?

There are three main use cases for adding a battery storage system to your home. Time-of-Use Shifting, sometimes called solar arbitrage or load shifting, Time-of-Use shifting allows you to capture the excess power your solar array generates relative to what your home is consuming.
